

**POLARIS COIN  
BROKERS**

## Secure The Future Today

We hire the best traders to serve you better

At Polariscoin-brokers, our mission is to support passionate entrepreneurs/investors in building great businesses and income flow. To do this, it takes more than just capital – it takes a trusted partner who understands the entrepreneurial and investment journey. And while some company may get rattled at the first sign of trouble, we stand by our investors to help them navigate both the ups and the downs..

The company offers long term and short-term investment opportunities. Polariscoin-brokers is currently managed by a senior team, which has extensive experience in the development and implementation of systematic investment strategies. Polariscoin-brokers directors, together with the company's employees and Employee Benefit Trust, currently own approximately 98% of the company. Aspect employs a team of over 130 professionals and invests heavily in the on-going research-driven evolution of its quantitative alpha-generating systems and their efficient implementation across a wide range of liquid asset classes. The company emphasises strong corporate governance and the

provision of first class investor service to a client base which includes many of the world's leading institutional investors. While offering unrivalled customer service by providing worry-free, cost-effective and timesaving investment models, we also ensure that your investment is best secure and protected from market volatility.

All we do at Polariscoin-brokers Investment is built upon the foundation of our values of integrity, trust, empathy, diversity and inclusion. In keeping with all these values, we are committed to providing extraordinary standard of services to our clients.

## **OUR GOAL**

Polariscoin-brokers Investment was built with the mission of making investing a simpler endeavour for everyone, not only expert investors. Democratization is a noun that represents this new century in a very strong sense. With technology becoming more accessible to more people, the solutions they bring are expanding into new markets as well. We utilize this new ubiquity

of technology to bring cutting edge investing solutions and  
planning right to your screen

With the simple and logical investment plans accompanied by high and stable profit, it will simplify everyone's thinking about the online investment world and help people make money more easily in that.

## **WHY CHOOSE US**

Cryptocurrency brings nice income if you deal with it wisely. This e-money is not issued by the banks, is not regulated by the government, and is not given as a loan. All the operations are processed only in digital form, and everyone can generate cryptocurrency, or mine. No world factor can influence the development of this technology. There are just economical laws, demand and offer.

To exchange, sell or purchase cryptocurrency you need to enter any of the numerous online exchanges. The matter is that they are anonymous, and the assets there are never frozen.

When there is a big amount of news about the cryptocurrency on the Internet, the demand for it grows; at the same time, many people who want to change their lives and start earning enter the exchanges. However, many of them just lose their money: you should not risk in case you have no idea about the rules of the game.

What are we doing this for?

Digital currency, like a regular one, can change according to the purchase and sale rate couple times a day. To earn well by selling cryptocurrency, you need to realize that you will have to forecast possible risks and consider them. Besides, you should also make analytical forecasts very accurately and regularly monitor the market.

The aim of our organization is to – establish the company where the best players with digital currency will participate. In addition, to reach this goal, we need investments from the individuals and legal entities.

Every employee of ours has a vast experience of work and easily processes a current analysis of the currency and chooses the most beneficial conditions for the investments. The investment fund has to minimize the risks and provide a stable, daily profit for the investors with the further reinvestment of the assets gained. In other words, the investors help us to develop, and we, in our turn, provide a nice profit for the investors.

# CRYPTO TRADING

INVEST IN CRYPTOCURRENCY MARKETS WITH PHOENIX

Invest in 'Crypto' with us and enjoy the benefits of trading on leading edge platform and technologies. Polariscoin-brokers's net-work of exchanges primarily dealing with Coinbase, allows to trade in over 30 Cryptocurrencies, such as Bitcoin, Ether, Bitcoin Cash, Litecoin etc., Our Crypto Trading experts are not just savvy of financial markets, but also on the Blockchain technologies underlying the Cryptos, this helps them make more informed trade decisions.

Cryptocurrencies (Crypto) are virtual monies that are built on a Blockchain that typically use a decentralized network to carry out secure financial transactions. Crypto Trading involves speculating on its price movements via a spread betting or CFD trading account, or buying and selling the underlying coins via an exchange. With Polariscoin-brokers.com's investment plan you are provided benefits of trading in Crypto without owing any risk.

# FOREX TRADING

INVEST IN STOCK, FOREX SPREAD-BETS AND CFDS

JOIN OVER 7.000.000 PEOPLE WITH THE WORLD'S LEADING HASHPOWER PROVIDER Forex is the world's most liquid and heavily traded market with over £5 trillion traded daily. The Forex market is decentralized, meaning there is no central location where trades are conducted, rather, Forex trading is conducted over the counter (OTC).

## WHY WE TRADE FOREX

### *Greater Leverage*

Forex helps us implement easy leverage to produce greater returns

### *24/7 Trading*

Forex markets are open 24 hours a day giving us greater flexibility and access

### *Tight spreads*

Forex allows us to trade various pairs from as low as 0.5 points

# NON FUNGIBLE TOKENS

## INVEST IN NFT DIGITAL COLLECTIBLES

We operate NFT marketplace digital platforms for buying and selling NFT. These platforms allow people to store and display their NFT plus sell them to others for cryptocurrency or money. Some NFT marketplaces also allow users to mint their NFT on the platform itself.

In exchange for a fee, our NFT marketplace will typically handle the transfer of an NFT from one party to the other. The types of NFTs available, fees, payment options, permitted blockchain and other rules will depend on which investment plan you use.

Given that Polariscoin-brokers spends so much time reviewing work before it's available for sale, investors can feel more confident in the quality. For their services, SuperRate charges 15% the first time an NFT is sold on the primary market. There is also a flat 3% of every transaction, which the buyer pays.

# METaverse INVESTING

## THE FUTURE IS METaverse

### START CREATING WEALTH THROUGH COMBINING BLOCK-CHAIN WITH METaverse

Yes, you can invest in the metaverse. But the metaverse isn't a singular digital world; there are many metaverses to explore. For example, in the cryptocurrency space, two of the most popular are Decentraland (CRYPTO:MANA) and The Sandbox (CRYPTO:SAND). Both Mana and Sand are native currencies for their respective metaverse platforms, allowing users to purchase digital real estate, among other things. The tokens could increase in value as more users join these platforms.

However, investing in metaverse cryptocurrencies is challenging because it's hard to know which platform will ultimately be the most adopted one. They're not all the same, so meticulous research needs to be done before investing which is why we have an expert metaverse research team.

# REAL ESTATE

## CREATE WEALTH THROUGH REAL ESTATE

JOIN OVER 7.000.000 PEOPLE WITH THE WORLD'S LEADING REAL ESTATE PROVIDER

Polariscoin-brokers Investment strives to get a #1 position in commercial real estate business. The key directions for our company are: audit (as a professional evaluation services); brokerage (a mediator role for facilitation of a real estate transaction between the two parties); net leasing; property management and real estate marketing. Aside from the sectors listed above the STB provides some relocation services for people or business moving to a different country.

Polariscoin-brokers Investment is building the world's leading real estate investment marketplace. Our mission is to make ownership of investment real estate radically accessible, cost-effective and simple.

Our platform lets everyone from first-time investors to global asset managers evaluate, purchase and own residential investment properties with confidence from anywhere in the world. Since launch, we've surpassed \$4 billion in transactions and continue to disrupt the industry with cutting edge technology and innovations. No matter your investing goals, Polariscoin-brokers Investment is here to help.

Clunky, opaque, inefficient... the process of buying and selling investment properties was badly in need of a rethink. Frustrated, Gregor Watson, founder of multiple financial and investment firms and a long-time investor in the real estate space, reached out to Gary Beasley to brainstorm. Gary had invaluable perspectives on technology and deep industry experience at various successful real estate, hospitality and tech companies and leading two companies through IPOs. They soon invited Rich Ford to the conversation. Rich had more than 20 years of M&A and MX raising experience, and was a pioneer in the single-family rental investing space.

With their combined experience along with Silicon Valley's top tech talent and investors, they built a vibrant marketplace where investing in real estate is as easy as investing in stocks.

## **AGRICULTURE**

**BUILD WEALTH THROUGH AGRIC TECH BASED INVESTMENTS**

**HIGH PROFIT POTENTIAL FARMLAND INVESTMENTS**

**MANAGED BY EXPERT FARMERS TEAM**

An agriculture investment is any investment into agricultural land or into a business that supports the agribusiness industry. Agricultural land is also referred to as farmland, arable land, cropland, or cultivated land. Agribusiness is any business that deals with agricultural products or services necessary in farming. This can

include businesses like seed or fertilizer distributors, timber businesses, tractor companies, and processing or packaging facilities.

At Polariscoin-brokers , we are passionate about bridging the gap between investors and agriculture. Farmers will have to produce 70% more food by 2050. With demand for food skyrocketing and the availability of farmland decreasing, we believe that investing in farmland is a smart move.

The world's population is growing, and rural areas are dwindling. Savvy investors see this as an indicator that demand and associated prices for agricultural areas and farmland are set to rise. Investing in agriculture can offer investors opportunities that are ripe for the picking (pun intended).

There is only so much land on our planet. Arable land, land sufficient for traditional farming, is limited to areas with adequate moisture, soil, and temperature. One large influence of the continued and growing demand for agricultural land is the fact that the world population has quadrupled in the past century, and it's estimated the demand for food will increase between 59% to 98% by 2050.

# GOLD TRADING

## INVEST IN GOLD CFDS WITH POLARISCOIN-BROKERS

### LETS PARTNER AND BUILD YOUR FUTURE THROUGH GOLD INVESTMENTS

Invest with us and enjoy the benefits of vivid trade with up to 1:20 leverage. Our Trade experts choose a mix of spread betting and CFD Trading to speculate on Gold prices across various commodity exchanges such as LSE, NYME and HKEX.

Gold Trading is a lucrative option for many Investment firms as it provides the perfect balance between low risk and high returns trade. Throughout the global financial crisis, many investors chose to invest in gold as a hedge against economic turbulence.

Although both gold and currency prices are largely determined by the market and economic events, the specific events influencing those values differ significantly.

We speculate on gold futures with spread bets and CFDs. We seldom invest directly in Gold. Our gold futures trading occurs 24 hours a day, five days a week, except between 10pm to 11pm (Singapore time).

# OIL & GAS

WE MADE OIL & GAS INVESTMENTS MORE ACCESSIBLE

## START INVESTING AND PREDICTING THE OIL PRICE WITH JUST A FEW CLICKS

Energy resources area is one of the fundamental elements of the activities where Polariscoin-brokers subsidiaries are involved. Today our subdivisions are occupied with exploring, extracting, refining, transporting (using pipelines and oil tankers), and subsequent marketing oil and gas products. Our products are used as the raw material for a large variety of chemical products, including pharmaceuticals, solvents, fertilizers, pesticides, and plastics. This sector is supported by the major industry giants which now are our important partners.

Day trading 'Crude oil' is about speculating on short-term price movements, rather than attempting to assess the "real" value of crude. By using a combination of long and short positions, our traders turn a profit whether the price of crude is rising or falling.

Crude Oil trading usually occurs on-spot, commodity markets are non-expiring and are not subject to an expiry date or rollover charges. These markets are priced based on the Futures contract and offer the opportunity to trade these markets long term without the need to roll.
